EDUCATION

Chulalongkorn University, Thailand

Aug 2024 - Present

Bachelor of Engineering in Computer Engineering | GPAX: 3.53

PROJECTS

GotCooked! (Overcooked-inspired game)

May 2025

- Designed and developed a **JavaFX**-based game in Java using object-oriented programming (**OOP**) principles.
- Implemented a hitbox-based collision detection system using **Axis-Aligned Bounding Box (AABB)** to enable **real-time player-object interactions**.
- Developed a multi-step, rule-based cooking **recipe system** requiring sequential player interaction across multiple stations.
- GitHub: <https://github.com/ZeLeaj/GotCooked>

Kalena of Valor (Intania Hackathon 2025 Competition Project)

March 2025

- Designed and implemented a **3D game map** using **Unity 6** as part of a hackathon prototype.
- **Demo:** <https://drive.google.com/drive/folders/1gG3KI2BdXLAgwvHoAve2ZDvUGew3pVeC>
- **TripPlanner** (Thinc10day Competition Project)
March 2025
- Integrated the **Google Maps API** to implement an **interactive map** for address search and location selection.
- Designed and styled responsive UI components using **CSS**.
- **GitHub:** <https://github.com/aongzera/Thinc10day>

SKILLS

- **Programming Languages:** C++, Python, Java, C
- **Hardware Description Language:** Verilog
- **Libraries & Frameworks:** JavaFX
- **Tools & Software:** Git, Visual Studio Code, Eclipse, Figma, IntelliJ IDEA, Vivado, Digital
- **Languages:** Thai, English

EXTRACURRICULAR ACTIVITIES

CP Olympics 2026 | Computer Competition

- **Managed 2–3 concurrent e-sports matches**, monitoring live gameplay, **reporting real-time issues**, and **coordinating fixes**.

CP Link | Activity

- Managed **speaker sessions** with continuous **improvements** driven by **weekly participant feedback**.

Hello CP52 | Activity

- Briefed participants on **activity rules** and gameplay flow before each session.
